EXPERIENCE

TUMMEE.COM | SOFTWARE ENGINEER

Start date: May 2021, End date: Sep 2023 | 2 years, 3 months

- Expanded SEO reach of the platform with 1M+ new pages to drive customer acquisition
- Worked on improving the Authentication on the platform.
- Tech Used: Python, Flask, Webapp2, HTML5/CSS/JS, Google App Engine

PROJECTS | TUMMEE

TEACHER SEQUENCES | GROWTH + SEARCH IMPROVEMENTS

2022 – 2023

- Worked on making 1M+ sequence pages available as logged-out pages for users and search engines.
- Improved existing search on the Teacher Sequences page by fixing bugs, adding new filters for search implemented using the Google Search API

SUPPORT SERVICE | CUSTOMER SUPPORT INTERFACE

2021 – 2022

- Implemented the service which was an interface for the Customer Support team to directly manipulate user data.
- Implemented multiple APIs related to Profile, Subscription, and Security information which would fetch and update user data on the interface

AUTHENTICATION SERVICE | AUTHENTICATION AND AUTHORIZATION

2022 – 2023

- Implemented authentication APIs, which were later used to authenticate all other micro-services on the platform
- Google OAuth 2.0, Google one-tap, Disallowing spam users on the platform

CUSTOMER REQUESTS | URGENT REQUEST RESOLUTION

2021 – 2023

- Added new pages (logged-in and logged-out) related to FAQs, feedback, tutorials and functionalities
- Resolving customer issues with authentication, accounts, signups, etc.
- Worked with the Yoga Team to help with customer requests and technology support for internal scripts. Reduced our time lag from 10 days to 2 days for getting for uploading new yoga poses on the platform.

INITIATIVES | ALONG WITH MAIN ASSIGNED WORK

2021 – 2023

- Worked on developing a 'Tummee Library' which had internal functions in the library files that could be used by any project
- Created quizzes related to technology topics to be used by team members

EXTRACURRICULAR ACHIEVEMENTS

- National Medalist in swimming with 100+ medals
