## Project Details:

### Project:- 1

<b>Project Name</b>	Mi Property Portal
<b>Role</b>	QA Engineer

### About Project:

Its single web portal has all the integrated modules to manage properties of any size. Which includes Tenant Screening, Online Rent Collection, Accounting & Reporting, Lead Management, Automated Forms, Maintenance Tracking, Property Inspection etc.

### Project:- 2

<b>Project Name</b>	MindStaq
<b>Role</b>	QA Engineer

### About Project:

MindStaq is the next generation office suite that works the way the 21st century digital mind works. MindStaq leverages the power of web technology to create a dynamic productivity tool geared for today's mindset and sensibilities— creating, consuming, collaborating, and reviewing content on a screen rather than in print format. As the first office suite to ground itself in Internet fundamentals, MindStaq echoes the way in which people actually think and work today, and introduces a radically reimagined work flow for both individuals and teams.

### Project:- 3

<b>Project Name</b>	Orgill (United States & Canada)
<b>Role</b>	QA Engineer

### About Project:

Orgill, Inc. distributes hardware and home improvement products to hardware, home improvement, and building material retailers in the United States, Canada and internationally. It offers advertising, marketing, and sales programs; and retail services. The company offers its products through its field salesforce.

### Project:- 4

<b>Project Name</b>	ICT Rated
<b>Role</b>	QA Engineer

#### About Project:

ICT Rated, a specialist focused marketplace that allows digital transformation Leads to find and invite expertise to discuss, quote, or participate in their mission critical projects. The expertise can be individuals, or companies, or teams within companies, or even virtual teams combining strategic partners and suppliers.

<b>Project:- 5</b>	
<b>Project Name</b>	Aybiz
<b>Role</b>	QA Engineer

#### About Project:

Aybiz is a business finder with a personality. Easily explore thousands of businesses and products in Kuwait and the Middle east. Treat yourself to an effortless browsing experience that ends with you finding the places and products you love. On the Aybiz App, you can:-

- ❖ Discover new places and events nearby
- ❖ Read useful reviews of local businesses and products

<b>Project:- 6</b>	
<b>Project Name</b>	ClearCaptions
<b>Role</b>	QA Engineer

#### About Project:

ClearCaptions is a free phone captioning service that provides near real-time call captions of phone conversations for anyone hard-of-hearing or with any form of hearing loss. Similar to captioned television, ClearCaptions allows for you to read real-time written call captions of what callers say on our revolutionary home phone, your mobile device, or your computer.

<b>Project:- 7</b>	
<b>Project Name</b>	RV Rental
<b>Role</b>	QA Engineer

#### About Project:

RV Rentals brings doers and dreamers together, providing RV owners with the best, most intuitive platform and tools to start making real money from their RV. In other words, we're helping to create the world's first fleet of RV entrepreneurs. With the RVshare platform, owners can list their RVs for renters to find. They can customize their listing in order to highlight what makes their RV special, why they love it, and any amenities included.

<b>Project:- 8</b>	
<b>Project Name</b>	Auto-DX
<b>Role</b>	Sr. QA Engineer

#### About Project:

Auto-Dx app is a ZS SaaS\* offering to address exploratory data mining needs.

It helps analysts perform exploratory analyses to discover insights by answering questions like, "What is happening" and "What might explain it"

The intuitive interface offers a variety of modular components for each phase of the analytics workflow. Analysts can bring any analysis to life by invoking the components either ‘individually’ for a specific task or ‘chained together’ for a detailed analysis.

### Education:

Year	University/Board	CGPA/ Percentage	Graduation /Standard
